

**Fedotov, A.; Shchetka, E.**

**The spectrum and density of states of the almost Mathieu operator with frequency represented by a continued fraction with large elements.** (English. Russian original) [Zbl 07215619](#)  
*Math. Notes* 107, No. 6, 1040-1045 (2020); translation from *Mat. Zametki* 107, No. 6, 648-953 (2020).

**MSC:**

- 47B Special classes of linear operators
- 47A General theory of linear operators

**Keywords:**

almost Mathieu operator; spectrum; density of states; semiclassical approximation

**Full Text:** [DOI](#)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
