

Segond, Frédérique

Overview of categorical grammars. (Approches des grammaires catégorielles.) (French)

Zbl 0728.68096

Math. Inf. Sci. Hum. 110, 47-60 (1990).

Summary: Given the importance of categorical grammars in the field of computational linguistics, we find it interesting to give an overview of this matter. We hope to provide interested researchers with some basic but useful material.

MSC:

68T50 Natural language processing

03B65 Logic of natural languages

91F20 Linguistics

Keywords:

categorical grammars; computational linguistics
