Primordial gravitational waves in a minimal model of particle physics and cosmology.

MSC: 83-XX Relativity and gravitational theory

Keywords: particle physics-cosmology connection; primordial gravitational waves (theory); axions; inflation

Full Text: DOI

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
