

Mitropol'skij, Yu. A. (ed.)

Current analysis and its applications. (Sovremennyj analiz i ego prilozheniya.) (Russian)

Zbl 0752.00030

Kiev: Naukova Dumka. 228 p. (1989).

The articles of this volume will be reviewed individually.

Indexed articles:

Bekker, M. B., Isometric operators with directing mappings, 3-9 [Zbl 0798.47010]

Borovskikh, Yu. V., Estimation of the convergence rate in the laws of large numbers for U - statistics, 9-16 [Zbl 0793.60026]

Vu Kim Tuan, Some integral transforms with the Macdonald function in the kernel, 16-22 [Zbl 0788.44005]

Galanov, B. A., On solvability of boundary equations for unilateral boundary value problems of mechanics of contact of elastic bodies with coverings, 23-30 [Zbl 0802.73067]

Gomozov, E. P., On infinitely parametric families of germs of smooth mappings, 30-32 [Zbl 0796.58007]

Gorbajchuk, V. I.; Kharkevich, Yu. I., Complete asymptotics of the upper bound of deviation of quasi-smooth functions from their biharmonic Poisson integral, 32-37 [Zbl 0791.41028]

Gritsuk, I. P., Some properties of multidimensional matrices connected with solution of matrix equations, 37-44 [Zbl 0788.15003]

Dinariev, O. Yu.; Mosolov, A. B., On the property of self-similarity for subsets of \mathbb{R}^n , 44-48 [Zbl 0795.28006]

Dmitrieva, I. Yu., Solution of the matrix Riemann problem with substitutional noncommutative matrices on the plane, 48-56 [Zbl 0785.30018]

Kadets, V. M., Characterization of B -convex spaces in terms of behaviour of integral sums, 56-62 [Zbl 0794.46014]

Kovalevskij, A. A., On some questions connected with the problem of averaging of variational problems for functionals with the variable domain of definition, 62-70 [Zbl 0788.49017]

Kokhanovskij, A. P., A condition of equivalence of the Abel and Voronoi summation methods, 70-74 [Zbl 0790.40005]

Kravchenko, V. G.; Shaev, A. K., On normalization of singular integral equations with Carleman shift, 74-82 [Zbl 0788.47043]

Kramarev, B. A., On a condition of compactness of a factor space of a topological group, 83-85 [Zbl 0803.22001]

Krutij, Yu. S., The method of incomplete factorization for solving some matrix Riemann problems, 85-89 [Zbl 0787.30027]

Kuz'mich, V. I., A generalization of the R. Agnew theorem on nonefficiency of the normal summation method, 89-93 [Zbl 0801.40006]

Lavrenyuk, S. P., On existence of generalized solutions of the Cauchy problem for degenerate equations of the type of vibration of a plate, 93-99 [Zbl 0786.35088]

Lebedenko, V. M., Lie superalgebras with one generating element, 99-107 [Zbl 0803.17010]

Levinskij, S. V., The boundary value problem for functions which are polyanalytic in several multiply connected domains, 107-111 [Zbl 0787.30028]

Malitskaya, A. P., The second boundary value problem in half-space for the diffusion equation with inertia, 112-117 [Zbl 0786.35068]

Marushan, M. N.; Krivorukov, V. P., On convergence of even order moments for sums of a random number of independent, identically distributed variables, 117-124 [Zbl 0794.60011]

Mel'nik, A. F., Tauberian theorem with the remainder for absolute summation by the Abel method, 125-132 [[Zbl 0798.40004](#)]

Meredov, B., Equivalent assertions in a limit theorem, 132-136 [[Zbl 0809.60027](#)]

Mestechkina, T. M., The Cauchy problem for a first order partial differential equation with coefficients of the type of "white noise", 136-141 [[Zbl 0793.60068](#)]

Nguyen Byong, On the existence of optimal control by a nonlinear operator equation in Banach spaces, 141-146 [[Zbl 0787.49005](#)]

Nguyen Van Ngok, On solvability of the initial-boundary value problem for equations of thermoelastic plates, 146-155 [[Zbl 0795.73018](#)]

Nguyen Viet Chien Tien, On some non-elliptic boundary value problems for the Laplace operator in the Euclidean space \mathbb{R}^3 , 155-161 [[Zbl 0786.35043](#)]

Petunina, M. Yu., Investigation of accuracy of a linear regression model in the case of unequal accuracy and dependent observations, 161-170 [[Zbl 0800.62394](#)]

Ryshchenko, N. D., Approximation of functions of two variables by arithmetic means of their multiple Fourier-Walsh series, 170-173 [[Zbl 0797.42017](#)]

Semko, N. N.; Kuzennyj, N. F., Structure of metacyclic meta-Hamiltonian groups, 173-183 [[Zbl 0791.20031](#)]

Sokolovskaya, O. P., New applications of an Essén-Shea theorem in the theory of meromorphic functions, 183-189 [[Zbl 0786.30023](#)]

Sviridyuk, G. A., On solvability of a model problem of dynamics of incompressible viscoelastic fluid, 189-193 [[Zbl 0796.76004](#)]

Storchaj, V. F., On approximation of functions by some kinds of local splines, 194-201 [[Zbl 0803.41016](#)]

Trebenko, D. Ya., Nilpotent groups of class two with two generators, 201-208 [[Zbl 0792.20043](#)]
