Sudsutad, Weerawat; Thaiprayoon, Chatthai; Ntouyas, Sotiris K.
Existence and stability results for \(\psi\)-Hilfer fractional integro-differential equation with mixed nonlocal boundary conditions. (English) Zbl 07543318
AIMS Math. 6, No. 4, 4119-4141 (2021)

MSC:
26A33 Fractional derivatives and integrals
34A08 Fractional ordinary differential equations
34A12 Initial value problems, existence, uniqueness, continuous dependence and continuation of solutions to ordinary differential equations
34B15 Nonlinear boundary value problems for ordinary differential equations

Keywords:
existence; uniqueness; \(\psi\)-Hilfer fractional derivative; nonlocal boundary condition

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
