Gao, Yi; Zhang, Wenjie
Robust recovery of a kind of weighted \( l_1 \)-minimization without noise level. (English)
Zbl 1496.94013

MSC:
94A12 Signal theory (characterization, reconstruction, filtering, etc.)
94A20 Sampling theory in information and communication theory

Keywords:
weighted \( l_1 \)-minimization; noise level; null space property; quotient property; compressed sensing

Full Text: DOI

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
