Sheipak, I. A.
Chebyshev-type polynomials arising in Poincaré limit inequalities. (English. Russian original)

MSC:
41A10 Approximation by polynomials
46E35 Sobolev spaces and other spaces of “smooth” functions, embedding theorems, trace theorems
26Dxx Inequalities in real analysis

Keywords:
approximation by polynomials; extremal splines

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
