On selections of multifunctions. (English) [Zbl 0785.54022](#)
[Math. Bohem.](#) 118, No. 3, 255-260 (1993).

The author defines a notion of cliquishness for multifunctions between topological spaces and studies the existence of quasi-continuous selections for cliquish compact-valued multifunctions from a Baire space into a separable metric space.
