

Tin-Loi, F.

A GAMS model for the plastic limit analysis of plane frames. (English) Zbl 0800.73092

Appl. Math. Modelling 17, No. 11, 595-602 (1993).

MSC:

74C99 Plastic materials, materials of stress-rate and internal-variable type

90C05 Linear programming

Cited in **2** Documents

Software:

CONOPT; GAMS; MINOS

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically

matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
