Representations of Riesz spaces as spaces of measures. II. (English) Zbl 0803.46009
Czech. Math. J. 42, No. 4, 635-648 (1992).

The paper is a continuation of the preceding paper [cf. review above]. The author studies discrete representation spaces and gives simple descriptions of the dual spaces of Riesz subspaces of some spaces. Also σ -hypercomplete Riesz spaces are introduced and investigated.
