

**Hilbert, David**

**Foundations of geometry.** Transl. from the 1930 7th German ed. by Francisco Cebrián.  
**With an introduction by José Manuel Sánchez. (Fundamentos de la geometría.)** (Spanish)

Zbl 0850.51001

Textos Universitarios. Madrid: Consejo Superior de Investigaciones Cientificas. lii, 319 p. (1991).

**MSC:**

- 51-01 Introductory exposition (textbooks, tutorial papers, etc.) pertaining to geometry
- 01A75 Collected or selected works; reprintings or translations of classics
- 51-03 History of geometry
- 51A05 General theory of linear incidence geometry and projective geometries
- 51M15 Geometric constructions in real or complex geometry

**Keywords:**

axioms; proportion; area; Pascal's theorem; geometric constructions
