

Buledza, A. V.

Improvement of the two-step Richardson algorithm. (English. Russian original) [Zbl 0855.65020](#)
[Cybern. Syst. Anal. 31, No. 6, 927-930 \(1995\)](#); translation from [Kibern. Sist. Anal. 1995, No. 6, 166-169 \(1995\)](#).

Summary: The structure is refined and a priori estimates are suggested for a two-cycle iterative Richardson algorithm proposed earlier by the author.

MSC:

[65F10](#) Iterative numerical methods for linear systems

[65B05](#) Extrapolation to the limit, deferred corrections

Keywords:

[convergence acceleration](#); [extrapolation](#); [two-cycle iterative Richardson algorithm](#)

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
