General solution of reflection equation for eight-vertex SOS model. (English) Zbl 0865.17009

MSC:

17B37 Quantum groups (quantized enveloping algebras) and related deformations
82B23 Exactly solvable models; Bethe ansatz

Keywords:
solid-on-solid models; interaction-round-a-face models; eight-vertex \( R \)-matrix; Yang-Baxter equation; star-triangle relation; reflection equation; eight-vertex SOS model; RSOS model
