

Jiang, Houyuan; Fukushima, Masao; Qi, Liqun; Sun, Defeng

A trust region method for solving generalized complementarity problems. (English)

Zbl 0911.90324

SIAM J. Optim. 8, No. 1, 140-157 (1998).

MSC:

90C33 Complementarity and equilibrium problems and variational inequalities (finite dimensions) (aspects of mathematical programming)

65K10 Numerical optimization and variational techniques

Cited in **34** Documents

Keywords:

generalized complementarity problem; nonlinear complementarity problem; semi-smooth equation; trust region method; global and superlinear convergence

Software:

PATH Solver
