Pan, V. Y.; Reif, J. H.; Tate, S. R.
The power of combining the techniques of algebraic and numerical computing: Improved approximate multipoint polynomial evaluation and improved multipole algorithms. (English) [Zbl 0977.68881]

MSC:
68W30 Symbolic computation and algebraic computation
65Y20 Complexity and performance of numerical algorithms
65D15 Algorithms for approximation of functions

Keywords:
algebraic computation; numerical computation
