

Bugajewska, Daria; Bugajewski, Dariusz

A note on differential and integral equations in locally convex spaces. (English)

Zbl 1090.34575

Arch. Math., Brno 36, Suppl., 415-420 (2000).

A survey on differential and integral equations in locally convex spaces is presented. The topological structure of the set of solutions of such equations was studied by the authors and various results are stated (without proofs) in the paper.
