

Bornhorn, Hubert Christoph

Mahler measures and special values of L -functions. (Mahler-Maße und spezielle Werte von L -Funktionen.) (German) [Zbl 1109.11315](#)

Münster: Univ. Münster, FB Mathematik und Informatik. iv, 113 S. (1998).

MSC:

[11G40](#) L -functions of varieties over global fields; Birch-Swinnerton-Dyer conjecture

Cited in **1** Review

[11F67](#) Special values of automorphic L -series, periods of automorphic forms, cohomology, modular symbols

[14G10](#) Zeta functions and related questions in algebraic geometry (e.g., Birch-Swinnerton-Dyer conjecture)

[11R06](#) PV-numbers and generalizations; other special algebraic numbers; Mahler measure

[19F99](#) K -theory in number theory
