

**Lewis, Robert Michael; Nash, Stephen G.**

**Model problems for the multigrid optimization of systems governed by differential equations.** (English) [Zbl 1119.65346](#)

SIAM J. Sci. Comput. 26, No. 6, 1811-1837 (2005).

**MSC:**

**65K10** Numerical optimization and variational techniques

**49J20** Existence theories for optimal control problems involving partial differential equations

**49M27** Decomposition methods

**49M37** Numerical methods based on nonlinear programming

Cited in **27** Documents

**Keywords:**

multigrid methods; optimization of systems governed by differential equations; numerical examples; finite difference method; nonlinear programming algorithms
