A planar hypohamiltonian graph with 48 vertices. (English) Zbl 1120.05054
J. Graph Theory 55, No. 4, 338-342 (2007).

Summary: We present a planar hypohamiltonian graph on 48 vertices, and derive some consequences.

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
