

Xie, Fuding; Ji, Min; Zhao, Hong

Some solutions of discrete sine-Gordon equation. (English) Zbl 1129.35456
Chaos Solitons Fractals 33, No. 5, 1791-1795 (2007).

Summary: In this paper, a series of exact solutions of discrete sine-Gordon equation are obtained by the different transformations and symbolic computation.

MSC:

35Q53 KdV equations (Korteweg-de Vries equations)
39A10 Additive difference equations

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
