Corrigendum. Three-color Ramsey numbers for paths. (English) Zbl 1164.05048

Summary: We wrote [Combinatorica 27, No. 1, 35–69 (2007; Zbl 1175.05093), p. 2, lines 18-22] that one type of extremal colorings comes from an equal part blow up of a factorization of $K_4$. In fact, this blow up must not be necessarily equal part.
