Stević, Stevo
Weighted radial operator from the mixed-norm space to the \(n\)th weighted-type space on the unit ball. (English) \[ Zbl 1246.32005 \] Appl. Math. Comput. 218, No. 18, 9241-9247 (2012).

Summary: The boundedness and compactness of weighted radial operators from mixed-norm spaces to \(n\)th weighted-type space on the unit ball are characterized.

MSC:
- 32A37 Other spaces of holomorphic functions of several complex variables (e.g., bounded mean oscillation (BMOA), vanishing mean oscillation (VMOA))
- 47B38 Linear operators on function spaces (general)

Keywords:
- weighted radial operator; mixed-norm space; \(n\)th weighted-type space; boundedness; compactness; unit ball
