

Kozlov, V. V.

Liouville's equation as a Schrödinger equation. (English. Russian original) Zbl 1348.37120

Izv. Math. 78, No. 4, 744-757 (2014); translation from *Izv. Ross. Akad. Nauk, Ser. Mat.* 78, No. 4, 109-122 (2014).

MSC:

37N10 Dynamical systems in fluid mechanics, oceanography and meteorology

Cited in **1** Document

37J25 Stability problems for finite-dimensional Hamiltonian and Lagrangian systems

37N20 Dynamical systems in other branches of physics (quantum mechanics, general relativity, laser physics)

Keywords:

Weyl quantization; Hermitian operator; non-selfadjoint extension; invariant manifold; invariant measure
