

Peccati, Giovanni; Reitzner, Matthias

Stochastic analysis for Poisson point processes. Malliavin calculus, Wiener-Itô chaos expansions and stochastic geometry. (English) [Zbl 1350.60005](#)

[Bocconi & Springer Series](#) 7. Milano: Bocconi University Press; Cham: Springer (ISBN 978-3-319-05232-8/hbk; 978-3-319-05233-5/ebook). xv, 346 p. (2016).

The articles of this volume will be reviewed individually.

MSC:

- [60-06](#) Proceedings, conferences, collections, etc. pertaining to probability theory Cited in **15** Documents
- [60H07](#) Stochastic calculus of variations and the Malliavin calculus
- [60G55](#) Point processes (e.g., Poisson, Cox, Hawkes processes)
- [60Hxx](#) Stochastic analysis
- [60D05](#) Geometric probability and stochastic geometry
- [00B15](#) Collections of articles of miscellaneous specific interest
