Adamo, Tim; Casali, Eduardo; Mason, Lionel; Nekovar, Stefan
Scattering on plane waves and the double copy. (English) Zbl 1382.83035

MSC:
83C35 Gravitational waves
81T13 Yang-Mills and other gauge theories in quantum field theory
81U15 Exactly and quasi-solvable systems arising in quantum theory

Keywords:
scattering amplitudes; plane waves; double copy

Full Text: DOI arXiv

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
