

Silvester, John

Droz-Farny constructions. (English) Zbl 1383.51029
Math. Gaz. 96, No. 535, 19-38 (2012).

MSC:

51M04 Elementary problems in Euclidean geometries
51M15 Geometric constructions in real or complex geometry

Keywords:

collinearity; nine-point circle theorem; Brianchon's theorem; line-conjugation

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
