

Martín-Fernández, J. A.

Comments on: “Compositional data: the sample space and its structure”. (English)

Zbl 1428.62233

Test 28, No. 3, 653-657 (2019).

Comment to [*J. J. Egozcue* and *V. Pawlowsky-Glahn*, *ibid.* 28, No. 3, 599–638 (2019; [Zbl 1428.62220](#))].

MSC:

62H12 Estimation in multivariate analysis
62H25 Factor analysis and principal components; correspondence analysis
62P20 Applications of statistics to economics
60F05 Central limit and other weak theorems
62G30 Order statistics; empirical distribution functions

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
