Lazard, Sylvain; Lenhart, William J.; Liotta, Giuseppe
Corrigendum to “On the edge-length ratio of outerplanar graphs”. (English) Zbl 1436.68249

Summary: Due to an editorial oversight, a flaw in the proof (not the result) of Lemma 5 remained in the TCS published version of the following paper [the authors, Theor. Comput. Sci. 770, 88–94 (2019; Zbl 1426.68221)]. Please refer to the electronic version on HAL (https://hal.inria.fr/hal-01886947) for the correct version.

MSC:
68R10 Graph theory (including graph drawing) in computer science
05C10 Planar graphs; geometric and topological aspects of graph theory

Keywords:
graph drawing; outerplanar graphs; edge-length ratio
